Solutions**

Our Services

Jeff Matthews

"I really enjoy speaking to those who wish to gain more knowledge in the IT industry. I'm building my business around my experience of working with great technology companies with a vision of the future."

When I'm not speaking to audiences around the country, I'm busy operating a Dallas based network consulting and Web design company.

Our solutions are specifically designed to ensure sustainability

Dear Jeff,

According to research conducted by the University for Industry, 63% of large organizations make use of some kind of online learning. Moreover, the proportion of e-learning used by such organizations is expected to grow from 14% to 33% over the next two years. Would you like to venture into Corporate Training Solutions and leverage its advantage?

If yes, read on to know more about Corporate Training Solutions and how JM Speaker LLC can help you tap that winning edge.

Thanks

Corporate Training

Elearning Solutions

Why is Corporate Training important to my organization?

Is your organization ready to take up new challenges? Every employee in

through seamless transitioning to and from wireless and wired network environments.

We integrate applications and business processes into a Web architecture aimed at enhancing an organization's Internet communications. The objective is to deliver "industrial strength" scalable web architecture while incorporating extremely high-level integration.

your organization should be well equipped to keep pace with the fast changing dynamics of your business. And the role of Corporate Training Solutions is to ensure the fine tuning of the core competencies and skill sets of your employees.

How can JM Speaker LLC assist me in developing Corporate Training Solutions?

At JM Speaker, we offer to develop corporate training solutions that bridge performance gaps within your organization, customized for your requirements. We do this by conducting an intensive analysis of your company's goals, processes and people.

What are the areas in which you can offer Corporate ELearning Solutions?

We offer learning solutions to address the following crucial areas-

EPSS or Electronic Performance Support Systems

Whether your need is a system that makes it easier for your employees to learn a new task or one that helps employees with finding information on a new structure or process, we can develop electronic performance support systems for you. The EPSS systems that we develop will give your employees an integrated, electronic environment that is easily accessible and provides employees with information, advice, assistance and monitoring that will greatly improve productivity.

Performance Gap Analysis

We offer to assist you in performance gap analysis and in providing e-learning solutions that reduce these performance gaps. Our aim will be to bridge the gap and eventually increase performance levels by building and assessing skills. To read more, [Click Here](#).

Change Management

Your organization might be finding it difficult to adapt to technological change, policy change, change in job responsibilities, external factors like new laws and regulations. We can develop e learning solutions that will clear all bottlenecks that affect smooth transitions to new systems and changes.

Performance Based Training

Your objective of outstanding job performance by your employees can be met by developing performance based training modules. We develop performance based training modules with strong emphasis on hands-on-training and role play techniques, to ensure that your employees meet targeted performance levels.

Why should I outsource Corporate Training Solution to JM Speaker LLC?

If you are looking for an outsourcing partner with experience and expertise in developing Corporate Elearning Solutions, outsource your work to JM Speaker LLC.

Contact us with your requirements and our Client Engagement Team will

contact you within 24 hours.
